October 6, 2017

Dear Students, Parents, Educators, and Community Members,

I am writing to you on behalf of the Pentucket Regional School Committee and School Building Committee. Pentucket is working toward a partnership with the Massachusetts School Building Authority (MSBA) for a school building project that addresses the educational and facility deficits of our current high school. The obsolete condition of the school impedes our educational programming and its systems are in imminent danger of possible failure. Since the acceptance of the District's 2015 Statement of Interest (SOI), we have maintained steady progress in completing MSBA requirements that ultimately can lead to a school building project.

You are invited to participate in the next step of the process with Jason Boone, the educational consultant with our designer, *Dore & Whittier*. Mr. Boone will be conducting a three-day interactive planning workshop scheduled for **November 8, November 15, and December 13, 2017**. Each session will be conducted in the **high school cafeteria** from **4 p.m. until 8 p.m.** Participants will have an opportunity to consider contemporary practices in education and ultimately contribute to the development of an overarching plan that will inform the work of the designer. Although it is not required, it is preferred for participants to attend each session, since there is a sequence and progression of information and learning.

Please register by sending an email to me at jmulqueen@prsd.org with *Planning Workshop* in the subject line of your email by October 27, 2017. Additionally, please provide information about any dietary restrictions that you have so that I can accommodate needs as possible.

I hope you will be able to participate and contribute to our next steps for a school building project. This planning workshop is one of many opportunities to contribute input and offer feedback. Notices will be distributed regarding future meetings and events.

Sincerely yours,

Jeffrey J. Mulqueen, Ed. D.
Superintendent of Schools
