November 2017

Dear Parents, Educators, and Community Members,

Pentucket Regional School District continues to make progress in a potential partnership with the Massachusetts School Building Authority (MSBA) for a school building project. The educational consultant who works with our designer, Dore and Whittier, is conducting a series of three planning workshops that will help guide our work. The MSBA requires that a thorough evaluation be conducted and multiple options considered. Among those options is a possible grade 7 – 12 configuration.

In the past, the District has had success in gathering information using a tool called *Thoughtexchange*. This valuable tool supports interactive, on-line discussion that empowers everyone to contribute to important dialogue, consider and prioritize ideas, and generate actionable results.

We are hosting our next *Thoughtexchange* conversation from November 13th through November 26th for the purpose of gathering additional information about the possible grade 7 – 12 configuration. I encourage all Pentucket parents, educators, and community members to participate in *Thoughtexchange*. Everyone's ideas are valuable!

Simply visit <https://my.thoughtexchange.com/#111621942> to participate in *Thoughtexchange* from November 13th through November 26th. Participation can occur at any time or multiple times during this window.

Thank you for contributing to the success of our school building project!

Sincerely yours,

Jeffrey J. Mulqueen, Ed. D.
Superintendent of Schools
